

BUILDING ON SOLID GROUND

## Business Access+ Online Banking

Use **Access+ Online Banking**, for secure and convenient online management of your accounts.

It offers:

- Real-time Balance Inquiries
- Check and Statement Images
- Transfers between Accounts
- Transaction Tracking

The **Business Access+ Online Banking** also offers you the following abilities securely through your internet connection at your desk:

- Request Wire Transfers
- ACH Payments
- Payroll Processing

You will enjoy greater functionality without jeopardizing security and can establish controls at either your office level or at the financial institution. A review function allows you to access and approve stop payments, fund transfers and file transfers, based on permission controls you establish in the specifications.

Security is extremely important when it comes to your financial matters. Complete privacy, controlled through encryption and passwords, ensures only authorized access to your accounts.

For the businesses that need different levels of security admission, the **Business Access+ Online Banking** delivers. We establish a Senior Administrator at your office that has the capacity to add, delete, and adjust the security levels of your staff anytime from the comfort of their office. This type of access is designed to accommodate the changing needs of your business.

For details on getting set up on White Rock Bank's **Business Access+ Online Banking**, please contact Julie Eckstrom at 651-267-3340, Katie Overby, or Traci Holt at 507-263-3030. They will be able to assist you with all of your **Business Access+ Online Banking** needs.

Our checking accounts are tailored to fit the unique needs of your business.
